

9.00 **Welcome** by Tom Christian Holm Adamsen

9.10 **Updates from Trondheim** (moderator Tone F. Bathen)

Asta Håberg: Use of amyloid and tau PET-tracers in patients with mild cognitive impairment

Rene Winter: First experience with a radiotherapy tailored imaging setup on the PET/MRI

Bendik Skarre-Abrahamsen: "Correcting" PET attenuation correction with generative adversarial networks

9.50 **Updates from Tromsø** (Moderator Rune Sundset)

Inigo Zubiaurre Martinez: Introduction

Michel Herranz: "In vivo protocols and pilot studies for immune-PET imaging"

Turid Hellevik: "Exploring the immunogenic potential of radiotherapy in preclinical models"

Ashraful Islam: "Immuno-PET imaging of the tumour-immune landscape using engineered antibody fragments".

10.30 **Short break** (Fill coffe and return 😊)

10.40 **Updates from Bergen** (Moderator Tom Christian Holm Adamsen)

Tom Christian Holm Adamsen: «Bottlenecks in PET – Tracer vs. Scanner»

Surprise ala Bergen

11.10 **Summary and closure** by Live Eikenes
